

# EVERLAST II™

THE NEXT GENERATION OF CONFIDENCE  
FOR RESIDENTIAL ROOFING

# EVERLAST II™

## Attractive Design

The symmetrical pattern of Everlast II™ creates an attractive board and batten look, which is a popular choice. The crisp, clean appearance, along with the variety of color options available, make it the perfect roof for residential buildings. A full line of trims and accessories are available to complete your building project. The panels, which interlock to create the attractive look, also provide for the weathertight seal. They have a deep antisiphon groove, which protects against leakage.

## Superior Strength

Everlast II™ is 38" wide and provides 36" of coverage. The major ribs are 9" apart and approximately 3/4" high with two minor ribs in between that are a full 3/16" high. A stiffener is added to all the major ribs, which, along with the superior thickness of the steel, makes this panel extremely strong. This not only adds considerable durability to your building, but also prevents rippling during the construction process.

## UL Ratings

- UL Construction No#560 UPLIFT TEST
- UL 2218 Class 4 IMPACT RESISTANCE
- UL 790 Class A FIRE RESISTANCE
